---

## Professional Summary

Senior ASP.NET Developer with over 8+ years of experience designing, developing, and deploying secure, scalable, and high-performance web applications. Strong expertise in .NET 8/9/10, ASP.NET Core, MVC, and RESTful APIs, with solid experience delivering cloud-ready systems using Microsoft Azure.

Proven ability to translate business requirements into robust technical solutions, apply clean architecture principles, and work effectively within Agile teams. Experienced in mentoring developers, conducting code reviews, and contributing to architectural decisions that improve system performance, maintainability, and scalability.

---

## Core Competencies

- ASP.NET Core & .NET 8/10 Development
- Enterprise Web Application Architecture
- RESTful API Design & Integration
- Cloud-Native Application Development
- Clean Architecture & SOLID Principles
- Agile / Scrum Delivery
- Code Reviews & Developer Mentorship
- End-to-End Full-Stack Development

---

## Technical Skills

**Backend Technologies**
.NET 8, ASP.NET Core, ASP.NET MVC, C#, Web API, RESTful Services

**Frontend Technologies (Supporting Stack)**
React, Next.js, React Native, TypeScript, JavaScript, HTML5, CSS3, React Native, Flutter

**Databases**
SQL Server, Entity Framework Core, MongoDB

**Cloud & DevOps**
Microsoft Azure, Azure App Services, CI/CD (basic exposure), AWS (fundamentals)

**Tools & Practices**

Visual Studio, Postman, Swagger, Git, Agile / Scrum, System Design & SDLC / Github / Vercel / Render

**Others**

Shopify / Wordpress / Google Cloud / Azure / AWS / DigitalOcean etc / DIgital Marketing / Graphics

---

## Professional Experience

### Senior Full-Stack Developer
### Rawnew Ltd | 2024

- Architect, develop, and maintain scalable enterprise applications using .NET 8, ASP.NET Core, and React
- Lead backend development efforts with a focus on performance, security, and maintainability
- Conduct code reviews and mentor junior developers to improve engineering standards
- Collaborate with product owners and stakeholders to translate business requirements into technical solutions
- Contribute to architectural decisions that support scalability and long-term growth

### Key Contributions

- Improved backend performance through optimized API design
- Reduced technical debt by enforcing clean architecture standards
- Increased delivery speed through improved development practices

### Software Developer
### Greenlane | 2023 – 2024

- Developed and maintained backend systems using ASP.NET Core, C#, and SQL Server
- Designed and implemented RESTful APIs supporting web and third-party integrations
- Applied clean architecture principles to improve system reliability and scalability
- Worked within Agile teams to deliver projects on time and within scope

### Key Contributions

- Built stable backend services supporting growing user demand
- Improved maintainability through structured architecture and coding standards

### Python Developer
### Data Systems Africa | 2015 – 2019

- Developed data processing pipelines and real-time dashboards
- Automated internal workflows using Python to improve operational efficiency
- Delivered scalable and maintainable software solutions for business intelligence
- Collaborated with stakeholders to gather requirements and deliver technical solutions

---

## Education

**BA in Computer Science**
Makerere University — 2014

---

## Additional Information

- **Availability:** Immediate
- **Contract Preference:** Open
- **Location Flexibility:** Johannesburg & surrounding areas

---
